*The purpose of this paper is to identify the importance and role of SMEs through Global Value Chain (GVC) and their impact in their home-country. Also, regarding the Emerging economies' significance in the global economy is growing as a result of their integration through Global Value Chains, but on the other hand, it is getting difficult to be an innovation leader because of their capacity. GVC have been more powerful in defining the role of global trade and FDI as well as creating economic prospects in their home countries, whereas SMEs have been a driving force behind economic growth. In this paper, I will get in touch with transactional relationships with GVC partners. The paper also tries to explain the thriving on international markets, essential players like SMEs, public and private sector social organizations, universities, and other stakeholders must reach out to potential of consciousness and intelligence gathering.*
